Under the motto:

"During our youth we strive to be acknowledged,

When reaching maturity we have to use our fame in the good of others"

the artist Margareta Paslaru will share her experience from the stage with those eager to achieve success, in a much awaited workshop named "General Rehearsal". "Each time I noticed talented youth, I invited them in my radio program "Margareta introduces....", I gave them my support and I included them in my own projects, just like I did with the guitarist arranger Calin Grigoriu."

At EUROPAfest 2014, during the workshop held by Margareta, the musician will present an individual moment, after which he will accompany the well-known Emilia Popescu in the play "Turneul" and the young Mirela Jienescu in "Emotii ciudate sentimente". The music and text for both of the plays are created by Margareta Paslaru, reorchestrated by Calin Grigoriu and can be found on the new CD "The actors are singing", registered with the occasion of the national campaign "From artists to artists", by UNITER.

The workshop will be followed by a jazz concert where bands from the Bucharest International Jazz Competition will sing. More information about the entrance to the event can be found at [www.jmEvents.ro](http://www.jmEvents.ro).
